### 5. Additional Detail

The small number of pupils single registered at Foundry and thus qualifying for pupil premium funding at the start of the year, as against the total number of pupil premium pupils educated by Foundry on behalf of a mainstream school that has received the allocated funding, coupled with the in-year turbulence which will inevitably increase the number of pupil premium and looked after children, makes quantifying actual spend to specific pupils extremely complicated.

At Foundry, all pupils are considered to be "disadvantaged" due to the impact of their challenging behaviours or their medical/vulnerable circumstances. The allocated budget exceeds the actual monies received and is used to support all pupils across the college who would benefit from the strategies that would normally be offered to those categorised as pupil premium.

The exception to this is looked after children where very specific interventions are identified in their termly PEP.

The Virtual School has commissioned Foundry to retain a level of emergency support.
